PROFILE

Computer science student with hands-on experience supporting technical events and group coding projects. I enjoy turning problems into clean, well-structured code, working in international teams, and learning new tools quickly. Comfortable with Python, JavaScript and PHP, and currently building a portfolio of small, well-documented projects.

EDUCATION

Computer Science current
[Gisma University of Applied Sciences — Germany](#)

University studies & computer club 2023 – 2024
[Atılım University — Ankara, Türkiye](#)

EXPERIENCE

Event Assistant (Volunteer) Sep 2023 – Dec 2024
[Atılım Computer Club, Atılım University](#) Ankara, Türkiye

- Helped organise seminars and workshops on programming, AI and cybersecurity.
- Provided technical support during events and helped maintain the club's website and social media.
- Took part in group coding projects and student-outreach / digital-literacy efforts.

SELECTED PROJECTS

- **Knight Path Finder** — shortest knight route on a chessboard using breadth-first search, with an interactive browser demo and Python unit tests. *(Python, JavaScript)*
- **Text Insights CLI** — command-line tool reporting word frequency and readability statistics for a text file. *(Python)*
- **Guestbook API** — minimal endpoint with input validation and safe storage of short messages. *(PHP)*

SKILLS

Programming	Python, JavaScript, PHP, HTML, CSS
Tools	Git & GitHub, VS Code, LaTeX, Adobe Photoshop, Google Workspace, Microsoft Office
Strengths	Analytical & creative thinking, problem solving, planning, prioritisation, clear communication
Ways of work	Adaptable, cooperative, comfortable in international environments

LANGUAGES

Turkish	Native
English	B2 (independent user) — listening, reading, speaking, writing
German	A1 (basic user)

INTERESTS & OTHER

Interests	Chess, TV & film, literature, music, visual arts, technology, fishing
Driving licence	AM, B1, B
